

PROJECT MANAGER

JOB DESCRIPTION

TechBlue is looking for a hands-on Project Manager to join our national consultancy practice, and provide project leadership and management for multiple, simultaneous projects of varying size and scope.

Our Project Managers oversee all aspects of solution delivery projects including resourcing, timelines, scope and budget. The Project Manager serves as the highest point of accountability for the success of the project.

An ideal candidate will have at least 5 years of professional experience fulfilling Project Management roles with a focus on IT solution delivery. This candidate will have experience leading the technical direction for multi-functional, multi-national and multi-regional project teams. The candidate will be equally comfortable collaborating with client management and stakeholders to manage deliverables against timelines and scope.

An exceptional candidate will possess working experience with CMMI for Services.

Desired skills and experience:

- PMP certification
- Comfort working with project stakeholders to develop business cases, project charters, scope, goals, objectives, resource requirements, milestones and timelines
- Experience developing and maintaining comprehensive project plans consisting of milestones, detailed deliverables, resource estimates and schedules for projects
- Identify, communicate and managing project risks
- Manage cross-functional remote project teams
- Ability to compose and discuss executive project status reports
- Develop and execute go-live checklists and post go-live support plans
- Strong leadership qualities, communication skills and business acumen
- Comfortable managing multiple project simultaneously
- Comfort in understanding and discussing strategic client and Technology Blue objectives
- Understanding and managing client and Technology Blue objectives throughout project duration
- Contributing as a key resource to Technology Blue project delivery methodologies, practices and standards
- Ability to travel up to 50%
- Must be a US Citizen
- Must be able to obtain a US Government security clearance

Company description:

TechBlue is a consultative firm that delivers technology and strategic solutions for our clients. We excel at transforming organizations to be smarter, be faster and be better in dynamic and rapidly changing business environments.

In joining TechBlue you will become part of a team that applies innovation, skill and knowledge to transform the core capabilities of some of the world's leading public and private organizations. As a TechBlue team member you will collaborate with clients to deliver new capabilities that facilitate strategic business objectives.

TechBlue is a small company, but with a big company perspective. We don't strive to put people in seats to drive revenue. Our success is based on the ideas and deliveries of our team. Your contributions will be visible, accountable and recognized as a core component of both TechBlue, and our client's success strategies.

If your idea of a rewarding work day includes collaborating with people that are great at what they do, delivering visible solutions that create value for clients, all while developing your potential through an engaging career experience, TechBlue is the right place for you.

TechBlue is an Equal Opportunity Employer
